SUMMARY

With a primary focus on Next.js, including TypeScript, I've delved into the intricacies of building dynamic web applications, evident through my LinkedIn portfolio. My projects highlight my proficiency in leveraging Next.js with TypeScript to create seamless user experiences, with additional expertise in headless CMS integration for efficient content management. Additionally, I possess solid skills in HTML, CSS, and JavaScript, complemented by my hands-on experience in TailwindCSS. This foundation enables me to craft visually appealing and functional interfaces. My dedication to learning and collaboration, coupled with my familiarity with Git and GitHub, positions me as an enthusiastic and valuable addition to your team.

Moreover, I have also ventured into Python development, where I've learned to create CLI-based projects. Currently, I am expanding my skill set by diving into data analysis libraries like Pandas and NumPy, further enriching my capabilities as a versatile developer.

EXPERIENCE

Senior Student

2024 - Present

Governor sindh initiative for certified cloud applied generative ai engineering

karachi sindh

Governor Sindh has initiated a program to foster certified cloud applied generative AI engineering in the region. This initiative aims to equip professionals with specialized skills in cloud computing and generative artificial intelligence. By providing certification and training opportunities, it empowers individuals and contributes to the development of a skilled workforce. As a senior student at the Governor Sindh initiative, I assist faculty and address student queries, fostering a supportive learning environment.

- My achievements that match the job I'm applying for include:

Completion of Responsive Projects with Next.js,TypeScript: Successfully developed several responsive web applications using Next.js,Typescript, showcasing my ability to create dynamic and user-friendly interfaces.

Proficiency in HTML, CSS and JavaScript: Demonstrated through various projects, ensuring robust and visually appealing web designs.

Experience with TailwindCSS: Applied TailwindCSS in multiple projects to enhance design efficiency and maintainability.

Python Development: Developed CLI-based projects, highlighting my versatility and problem-solving skills.

Ongoing Learning: Currently expanding my expertise with data analysis libraries like Pandas and NumPy, showing my commitment to continuous learning and adaptability.

These achievements reflect my technical capabilities and readiness to contribute effectively to your team as a front-end developer.

EDUCATION

Passed 10th Grade

2023 - 2024

People"s school mirpurkhas sindh

STRENGTHS

- 💎 **Creative Problem-Solving**
I developed my creative problem-solving skills through practicing LeetCode problems using Python. By consistently solving basic problems

ACHIEVEMENTS

- 💎 **Responsive web designs**
I successfully completed several responsive web projects using Next.js, demonstrating my ability to create dynamic and user-friendly interfaces across various devices and screen sizes. These projects not only showcased my technical skills but also my attention to detail in ensuring optimal user experiences.
